Commodore's Bit

Hi all, well spring has arrived with some beautiful sailing weather as was evident with race 3 and 4 held in excellent weather . Well done to the race fleet who raced last weekend supporting Chris and John. With the Covid – 19 recommended regulations in place its allowing the club to continue club events safely , so our next event will be a cruise held by life members Nev and Judy your attendance will be very welcome

The Wangi cruise held by the Harrisons they had three boats and three campers turn up with difficult weather conditions but was still a good weekend with a roaring fire , wasn't too bad a place to beach the boats , good place to hide with the westly winds blowing .

Next General meeting 15th September will be another Zoom meeting with details to be sent out

Thank you stay safe and healthy
Kev

Cruising

Lake Macquarie

Hi Sailers,

The big news is: There will be a September cruise!

Neville and Judy Heap have stepped up to save the day and are leading a magical mystery cruise on the lake over the weekend of 19/20 September.

I will do my best to set up a facebook event page to enable them to get feedback about your intentions.

The lake is beautiful at this time of the year. Spring has sprung. Be there and enjoy.

If the fb page doesn't do it for you, let me know your intentions and I'll pass them on.

Best regards,
Graeme

PS: The 31 Oct/1 Nov cruise is begging for a leader.

REAR PROJECTION LIGHT WHEN TOWING

The RMS's Vehicle Standards Information No. 62 details maximum load dimensions for boats on trailers. It's well worth a read and can be found on the RMS website.

One dimension it details is the rear projection (RP). This is the distance from the rear of the trailer frame to the rear of the load, whether this is the boat, outboard or mast. It states that the rear projection should not be greater than 1.2m and if it is then the rear of the load should have a red flag (minimum of 300mm square) during daylight hours and at night or in foggy conditions, a red light or red reflectors that can be seen from a following car.

We travel a bit further for club events, we live in Faulconbridge on the Blue Mountains. So sometimes we travel in the dark or through fog in the western plains of Sydney.

What I have done is attach a bicycle rear light to a bracket that fits on the wind indicator bracket on the end of the mast. Bicycle lights are cheap, weatherproof, the LEDs are bright and battery life (1xAAA) is good. I keep the light on the steady red setting as I don't want to cause confusion with a flashing red light. The photo below shows the set-up.

I keep the light in the car so I can easily attach it if we are caught out in the dark or come across fog. It is also a good emergency light if the trailer lights fail for any particular reason.
