

# BUNGWALL BUCKET 2019

*The lead up to this event was 2 ladies [Cathy and Fe] who decided that paddling their new flotation toys was too hard to paddle and decided to try their luck at hoisting an umbrella on the downwind run.*

*With a guaranteed NE breeze to be around for the next couple of days a challenge/I'm better than you/I want to try that vibe a meeting was called early in the morning and some ground/race rules were issued as listed below, and it was on!!*

*The fleet consisted of over 30 entries and no one sank or was injured but it was so much fun that there was a recall of all boats just to give the men a try. You had to be there.*
